

## Literary Devices

You and a partner will be creating a Literary Device Quiz video that will be published to YouTube and posted on your website.

Your video will begin with defining the following 8 Literary Devices:

- Metaphor
- Simile
- Hyperbole
- Allusion
- Alliteration
- Personification
- Pun
- Onomatopoeia

After you have introduced and given the audience a “background” on the different type of Literary Devices, you will introduce the quiz. The quiz will consist of 10 Song clips where you will introduce the Song and Artist and ask them to write down what Literary Device, or devices are. You must make sure you include at least one of each literary device listed above.

After the songs have been introduced, you will explain what literary devices are paired with each song and why. You have a choice if you want to play all the songs first and then give the explanations, or give the explanation after each song. Your choice!
